PROFESSIONAL SUMMARY

Full-stack developer experienced in building and deploying React, Next.js, and Java-based web applications with REST APIs, relational databases (MySQL, PostgreSQL), and secure authentication. Skilled in debugging, performance optimization, and end-to-end SDLC practices, with AWS cloud exposure and strong problem-solving ability.

EDUCATION

Vellore Institute of Technology

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.09

Bhopal, India

Oct 2022 – Oct 2026

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: React.js, Next.js, Node.js, Tailwind CSS

Databases & Cloud: MySQL, PostgreSQL, MongoDB (Basics), AWS (EC2, S3, IAM, CloudWatch)

Tools & Practices: Git, GitHub, REST APIs, Postman, SDLC, CI/CD Fundamentals, Unit Testing

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

MerAI – AI Career & Learning Mentor

Aug 2025 – Oct 2025

Next.js, React, PostgreSQL, Google Gemini AI

GitHub | Live Demo

- Built full-stack AI mentoring platform (Next.js, Gemini AI) with CRUD dashboards – cut prep time 45% in a 15-user pilot.
- Designed normalized PostgreSQL schema with role-based access; debugged and optimized queries to sustain sub-200ms response under load.
- Implemented secure authentication and edge-optimized deployment – Lighthouse score 92+, zero critical failures.

PowerPulse – Smart Electricity Tracker

Dec 2024 – Mar 2025

React.js, Java Servlets, MySQL, REST APIs

GitHub

- Built CRUD analytics dashboard (React.js) visualizing consumption trends – cut manual billing effort 50%.
- Developed Java Servlet + MySQL backend for real-time meter data and billing estimates, applying OOP and SDLC practices to maintain 99% uptime.
- Optimized REST API via indexing and connection pooling – reduced query latency 35%.

Culinara – AI-Powered Recipe Platform

Jan 2026 – Mar 2026

Next.js, React, Strapi, Google Gemini API

GitHub | Live Demo

- Built full-stack AI recipe platform (Next.js, Strapi) with CRUD-based pantry management – cut discovery time 60%.
- Enabled Gemini-powered image ingredient detection (camera, upload, drag-and-drop) – 92% accuracy in user testing.
- Delivered secure authentication and Vercel deployment – sustained page loads under 1.5s across free and Pro tiers.

QuickCart – E-Commerce Web Application

Oct 2025 – Mar 2026

React, Tailwind CSS, Firebase, JavaScript

GitHub | Live Demo

- Built responsive e-commerce UI (React, Tailwind CSS) tested across 5 screen sizes – boosted usability scores 25%.
- Integrated Firebase authentication and real-time cart sync, debugging data flow to cut fetch latency 20% over REST-based approaches.
- Integrated Whisper AI voice search with speech-to-text – accurately recognizes queries despite mispronounced input.

CERTIFICATIONS

- Data Visualization Tools – AlmaBetter
- AWS Solutions Architect Training Program – Ethnus
- MERN Full Stack Development – Ethnus
